What you will see

Sensō-ji, Tokyo

Tokyo's oldest temple, reached through the Kaminarimon gate and a street of small shops. Come at 7 am, or in the evening when it is lit up and quiet.

Time: 1–2 hours

Lake Kawaguchi

The easiest place to see Mount Fuji up close, with lakeside paths and hot-spring inns. The mountain hides in cloud on many days; mornings in autumn and winter are clearest.
